Skirting Screw Chisel Point

The floor/skirting screw is used indoors for fixing skirting or when laying hardwood flooring. The chisel point helps to prevent splitting when used on thinner mouldings or reduced edge distances. This screw can be used in wood or steel up to a maximum thickness of 0.9 mm.

Ominaisuudet

Advantages

- 6 lobe drive
- Trim head
- Chisel point
- Coarse thread with reverse thread
- Yellow zinc plated

Sovellus

Support

- Skirting to wood
- Skirting to steel
- Hardwood flooring to wood
