

CLSA4 Wood Facade Screw - Stainless A4

Made for outdoor wood cladding. The flat head with fiber lock technology protects the wood from moisture, and the double thread ensures sufficient insertion, even in high density wood without the risk of spin-off. Stainless A4 version made for non-painted facades or in marine environments.

Ominaisuudet

Material

Inox A4

Features:

- 6 lobe drive
- Flat head with fiber lock technology
- Double threaded
- Extreme ductility

Sovellus

Applications:

- Wood facades to wood
