Framing Nail 15° Wire coil - Round head, Ring shank - Electrogalvanised

SIMPSON

Strong-Tie

The framing nail is designed for wood to wood constructions and can be used in indoor environments. The coil collation gives more nails in the magazine and reduce the need of reloading. The ring shank increases the withdrawal capacity.

Ominaisuudet

Features:

- Round head
- High withdrawal capacity
- Annular ring thread
- Wire coil 15°

Sovellus

Application:

- Framing wood to wood
