

PPSD
Timber to Steel Screw

The PPSD is suitable for timber to steel applications. It has a countersunk ribbed flat head which enables the head of the screw to be easily countersunk in the timber ensuring a neat finish. The screw has a fine thread and pilot drill point which eliminates the need for a pilot hole.

Features

Material

- Steel - Yellow zinc coated

Benefits

- Countersunk ribbed flat head for a neat finish
- Pilot point
- Fine thread
- Driver bits included (BIT3SE)

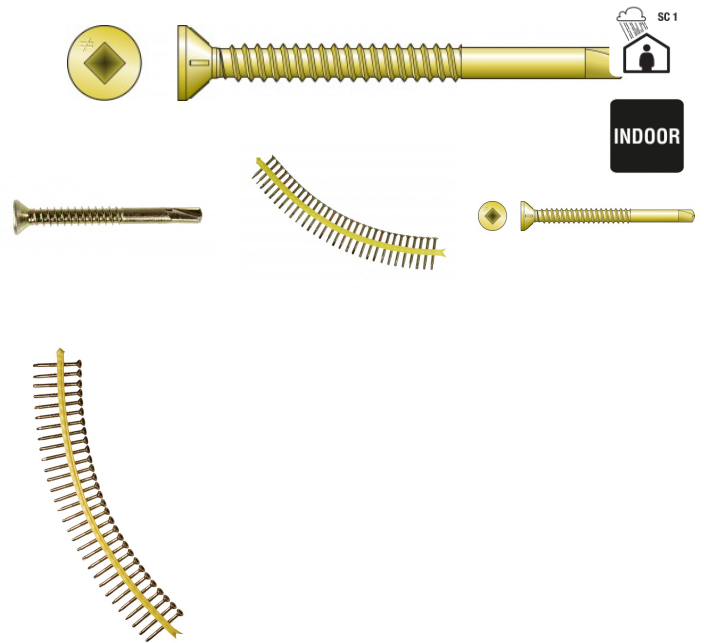

Applications

Support

- Suitable for 1mm - 2mm steel

Common Applications

- Fixing timber to steel
