

Technical data sheet

SIMPSON

Strong-Tie

E1B

Self-Drilling Screw

The E1B is a 6.1mm diameter self-drilling screw with a #3 drill point and hex washer head. The drill point allows the screw to penetrate the steel without the need for a pilot hole. Suitable for use with hold downs such as S/HDS. Driver bit not included.

Features

Material

Steel - Clear zinc coating

Features

- 6.1mm x 25mm
- 3/8" hex washer head
- 12.2mm integral washer
- #3 drill point

Applications

Common Applications

Recommended for use with certain Simpson Strong-Tie connectors for fixing to steel up to 8mm max.
