

PEB

Plasterboard Edge Bead

Plastering and rendering made simple.

- Products simply fixed with plaster dabs or nails.
- Edges, arrises, corners, joints and abutments all easier to form.
- Designed to minimise potential chipping, cracking and associated damage.

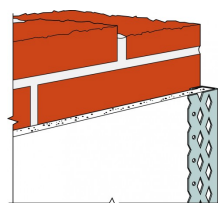

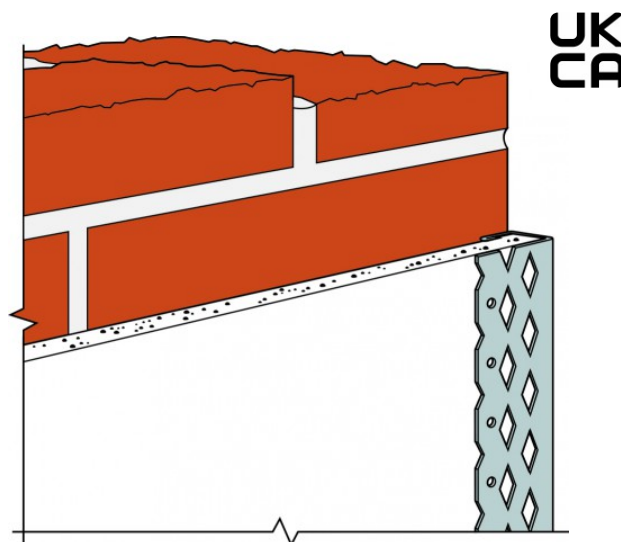

Plasterboard edge bead (25mm Wing)

- Provides reinforcement for plasterboard edges.
- Suitable for 9.5mm or 12.5mm plasterboard.

Installation

Edge beads may be fixed by dabs or by masonry nails of similar material.

Plasterboard Edge Bead: Fix the perforated wing flush to the board face before applying final skim coat. The bead may be reversed if required by fixing the wing to the board's inner surface.
