

Technical data sheet

SIMPSON

Strong-Tie

FSM

Steel to Steel Screw

Steel profile screws which is designed for joining reinforcement beams. The phosphated FSM is suited for fixing material up to 2x1.0 mm. The electrogalvanised FSM screw is suited for fixing material up to 2x2.0 mm.

Features

Material

.

Features

- Cross point head.
- Flat head.
- Drill point.
- Metal tapping thread.
- Phosphate coating option.
- Electrogalvanised coating option.

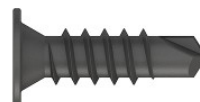

Applications

Suitable for

- Steel to steel.

When to use

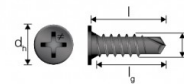

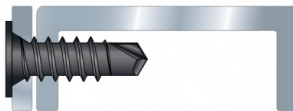

.

FSM
Steel to Steel Screw
