QDPROPHG2

### Quik Drive Attachment for Light Gauge Steel

The QDPROPHG2 is designed to be used in conjunction with FPHSD screws and PHSD screws 19mm long. This Quik Drive attachment is suitable for light gauge steel applications.

## Features

### Material

- Manufactured containing PTFE
- No lubrication required

### Benefits

- Connects easily with screw gun adapter or extension
- Possible 360° rotation of attachment on adapter or extension
- Self-lubricating material for long life and smooth operation
- Self-locking depth adjustment to prevent damage to steel

### Kit Includes

**QDPROPHG2 Quik Drive attachment, mandrel, driver bits and quiver.**

## Applications

### Common Applications

- Light gauge steel
- Steel framing
