Quik Drive Decking Screws

Suitable for marine environments and industrial atmospheres. The Quik Drive collated TTFA4 screw will not discolour the woodwork around the screw head. Also suitable for precious woods such as oak, cedar or larch. The screw has a 6 lobe recess to ensure good grip and a cutpoint, which effectively drives the screw into the woodwork and counteracts splitting.

Features

Features

- 6 Lobe drive
- Flat head with nibs
- Coarse thread
- Type 17 point
