

Technical data sheet

SIMPSON

Strong-Tie

PPJST

Garden post bases

PPJST are recommended for creating small structures such as garden fences. Very easy to disassembled, they are particularly suitable for temporary structures. PPJST must be screwed into the ground.

Features

Material

- Steel DD11 according to NF EN 10111.
- Hot-dip galvanized finish according to NF EN ISO 1461.

Benefits

- Precut plate corners for improved safety.

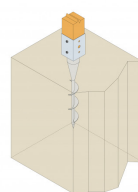

Applications

Header member

- **Supporting member:** solid wood, glued-laminated wood, composite lumber, etc.
- **Supported member:** solid wood, glued-laminated wood, composite lumber, etc.

Applications

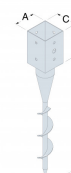

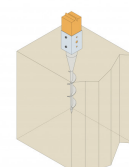

- Fastening of fences.
- Fastening of light structures for gardens.
- Fastening of temporary structures.

PPJST Garden post bases

Installation

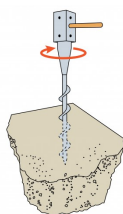

Fixing

Post:

- Bolts.
- Lag screws dia. 10 mm.

Mise en garde

The garden range is not suitable for structural applications subjected to significant forces (wind, etc.). The structures must also be correctly designed and installed in order to withstand lateral loads caused by wind (knee brace, etc.).

Fixation à visser dans le sol
