

EB-TY® Premium Premium Hidden Deck-Fastening System

The new EB-TY Premium Hidden Deck-Fastening System is the ideal solution that blends strength with ease of installation in a fastener that won't detract from the deck's finished appearance.

Egenskaber

Material

- EB-TY Premium biscuits
- Type A4 stainless-steel trim-head, 6-lobe screws with black-painted heads provide a concealed finish and blend in with EB-TY biscuit
- Ipê plugs for first and last board installations
- EB-GUIDE predrilling tool for more precise fastener angle alignment
- 1/8" quick-release impact-ready drill bit
- T-15 6-lobe driver bit for reduced cam outs

Features

- Easy to install for professional builders and DIYers
- Ideal for premium hardwoods
- For residential and commercial applications
- The patented arc shape of the EB-TY also helps ease insertion — works with pregrooved and biscuit-cut slots
- Prevents over-driving of the screw, helping to ensure consistent, quality installations
- Provides greater holding power and increased pullover resistance
