

CSA-ZT

Quik Drive® CSA Connector Screw Impreg+

Quik Drive® collated CSA connector screw is developed for mounting of steel connectors to timber.

The conical head secures fully contact to the connector which increases the transfer of force. A fixed connection with larger cross-bearing capacity than for standard screws is obtained. The torx helps to fix the screw during insertion.

Egenskaper

Material

- Steel quality: Carbon steel
- Corrosion protection: Impreg®+

Advantages

- The thread is developed for timber and ensures a light and quick running into the timber
- The timber does not crack
- The conical shape under the head allow a full contact of the screw with the hole.
- The Impreg®+ coating allow the use of these screws in outdoor condition

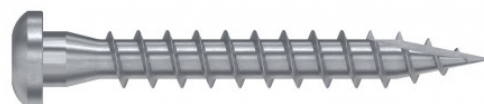

Användning

Applications

Main beam / Secondary beam: solid wood, composite lumber, glued laminated wood

When to use

- Fixing of connectors
- Joist hangers
- Wind bracing straps etc.
